10. Comments from an AFSC Graduate

25X1A9a

 OSR, who graduated from the Armed Forces Staff College in June, has forwarded his critique, portions of which are quoted below:

"With few exceptions, the members of the faculty and student body with whom I closely associated had a high regard for the Agency and its purpose. A few who held misconceptions about the Agency were obviously influenced by journalists, but the vast majority held the view that news coverage of many aspects of national security affairs often is irresponsible...I found that a number of the Army faculty and students had recent assignments that required them to participate with Agency personnel in planning and implementing overseas programs."
